

Product Selection Guide

Smart access control and door entry systems

Security made simple.

With 40 years of experience in designing and manufacturing market-leading access control security solutions, we are passionate about technology.

We harness the latest available technologies to deliver elegant, useful and practical solutions for our customers. We are constantly striving to make our products simple to buy, install, and use.

We are a manufacturer committed to offering free training and ongoing support to our installers, all backed by our 5-year warranty for peace of mind.

Easy to quote

- Build your system one door at a time
- A range of products to suit any site requirement
- Scalable system – add doors when the budget is available

Easy to install

- Plug and play solutions that connect directly to the network
- Mix and match Net2 products – they are all designed to work together seamlessly
- Clear instructions and colour coded wiring labels

Easy to work with

- Industry-leading technical support
- 5-year warranty and three step returns policy
- Free software upgrades and no multiple licence fees

The Paxton Installer App

Paxton in Your Pocket – the Ultimate Installer Tool

The new Paxton Installer app gives you instant access to all the tools you need to install Paxton products. The free app, available for iOS and Android, provides quick and easy access to product specs and technical information, plus anything you could need on-site!

5 Networked Access Control

Our networked access control system, Net2, is administered using one or more PCs and can be monitored and managed from a central location. Our door controllers come as IP, wireless or battery powered.

- 6 Wired Controllers - Net2 Plus
- 7 Wireless Controllers - Net2 Nano
- 8 Building Control - I/O Board
- 9 Net2 Readers
- 13 Net2 Tokens
- 15 Net2 Software
- 16 Accessories & Other Components
- 18 Demonstration Products

19 Access Control & Video Management

Our single platform solution combining access control and video management. Paxton10 is an ideal solution to futureproof site security.

- 20 Paxton10
- 21 Integration
- 22 Cameras
- 24 Readers and Tokens
- 25 Software and Apps

26 Door Entry

Our door entry system, Entry, is an advanced PoE door entry system with built-in access control capabilities.

- 27 Entry System Components
- 30 Demo Cases

32 Wireless Door Handles

PaxLock Pro is a wireless, electronic battery powered door handle. It is compatible with Net2, or works in Standalone mode.

- 33 PaxLock Pro
- 34 PaxLock Pro Components

36 Standalone Access Control

Our standalone access control is a non-networked system made up of readers or simple door controllers located at each door. Standalone systems are administered via the use of tokens or card packs.

- 37 Switch2
- 38 Switch2 Readers
- 41 Compact
- 43 Standalone Tokens
- 44 Standalone Accessories

46 Additional Information

Welcome

This Product Selection Guide is designed to help you to choose the right products to build up an access control system.

Paxton produce a variety of security solutions to suit different site requirements. Our one door philosophy means doors can be added as required or when budget becomes available.

What's new?

PaxLock Catalogue Updates

Following recent updates to simplify our PaxLock Pro portfolio, you can now find all our PaxLock products on **page 32** of this Product Selection Guide. Every PaxLock Pro is compatible with Net2, as well as working in standalone mode.

Paxton10

Paxton10 is a single platform solution combining access control and video management. It is a versatile solution that supports multi-site management and remote access. Scalable from 1 to 1000 doors, and 1 to 1000 cameras, Paxton10 is suitable for all building types and sizes.

- ▶ Easy to quote and configure, build a complete system with just five components
- ▶ Manage multiple sites on a single system remotely
- ▶ Web-based user interface with no configuration required
- ▶ Custom dashboards to suit any user requirements
- ▶ Built in **Bluetooth®** to use phone or smart watch smart credentials
- ▶ Works with Entry and PaxLock Pro

See page 19

Networked Access Control

Our networked access control system, Net2, is administered using one or more PCs and can be monitored and managed from a central location. Our door controllers come as IP, wireless or battery powered.

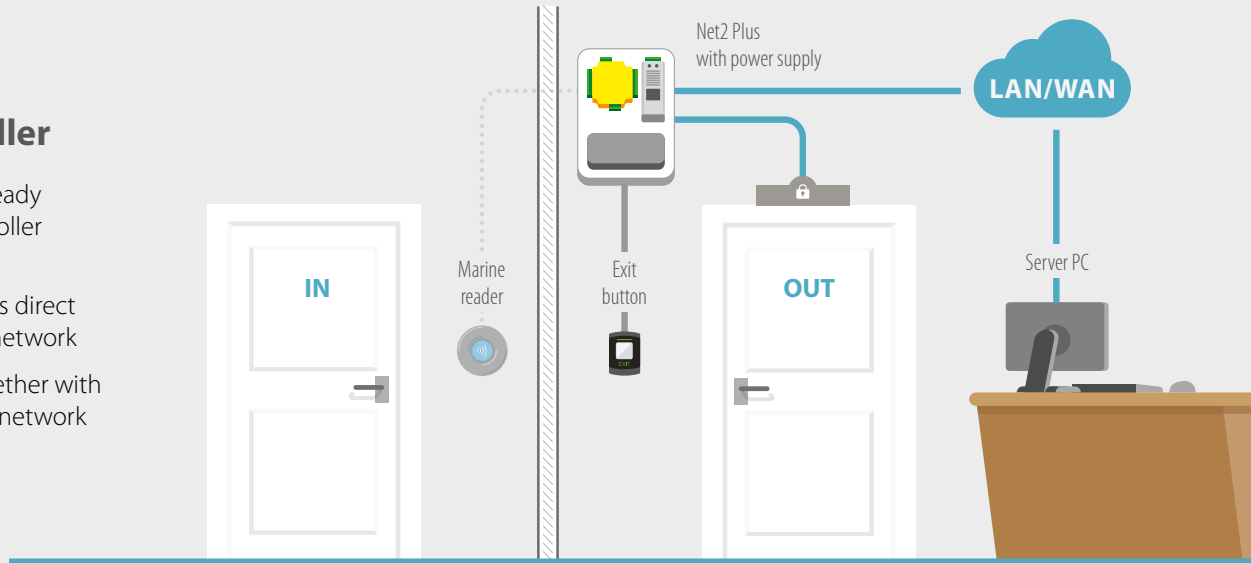

- ▶ Net2 is Paxton's flagship access control product
- ▶ A powerful networked system that addresses the needs of the mid-market
- ▶ Modular approach for simplicity and scalability
- ▶ Simple intuitive software
- ▶ Range of features that move beyond basic access control
- ▶ A complete solution that encompasses wireless and door entry

Networked Access Control

Net2 Plus Wired Controller

- ▶ A networked IP ready single door controller
- ▶ On-board TCP/IP connection allows direct connection to a network
- ▶ Can connect together with dedicated RS485 network

Net2 Plus 1 door controller

Net2 Plus is a suitable alternative to the Net2 Entry - Control Unit, when combined with any 802.3af or 802.3at (PoE+) compliant 3rd party PoE switch. We recommend the TP Link TL-SF1006P switch which has been thoroughly tested with the Entry system.

Net2 Nano Wireless Controller

- ▶ A wireless single door controller
- ▶ Communicates to the server using Net2Air technology via a Net2Air bridge
- ▶ No cable required between Net2 Nano and the server PC, reducing installation time

Net2 Nano 1 door controller - 12V
2A PSU, Plastic cabinet

- ▶ Landlord Tenant
- ▶ Security Lockdown
- ▶ CCTV, Fire and Intruder alarm integration
- ▶ and more...

Building Control - I/O Board

When a valid fob is presented to the reader, the I/O board can be programmed to trigger the power to lighting, heating and electrical equipment.

The Net2 I/O board is a simple, yet powerful addition to the Net2 system. It can be wired alongside a Net2 door controller, to switch power on and off to electrical equipment to save money and energy. The Net2 I/O board can control power to lifts, lighting, heating, water and air-conditioning by using the Triggers and Actions application in the Net2 software. These actions can be programmed for a particular time, or in response to a specific Net2 event.

- ▶ Connect directly to a LAN/WAN only
- ▶ Enable integration with lifts, lighting, heating and more
- ▶ 4 inputs and 4 outputs on the Net2 I/O board

Please note, Net2 I/O boards work as part of the Net2 system. They are not door controllers.

Access Control and Video Management

Paxton10 is a single platform solution combining access control and video management. Scalable from 1 to 1000 doors, and 1 to 1000 cameras, Paxton10 is a versatile solution suitable for all building types and sizes.

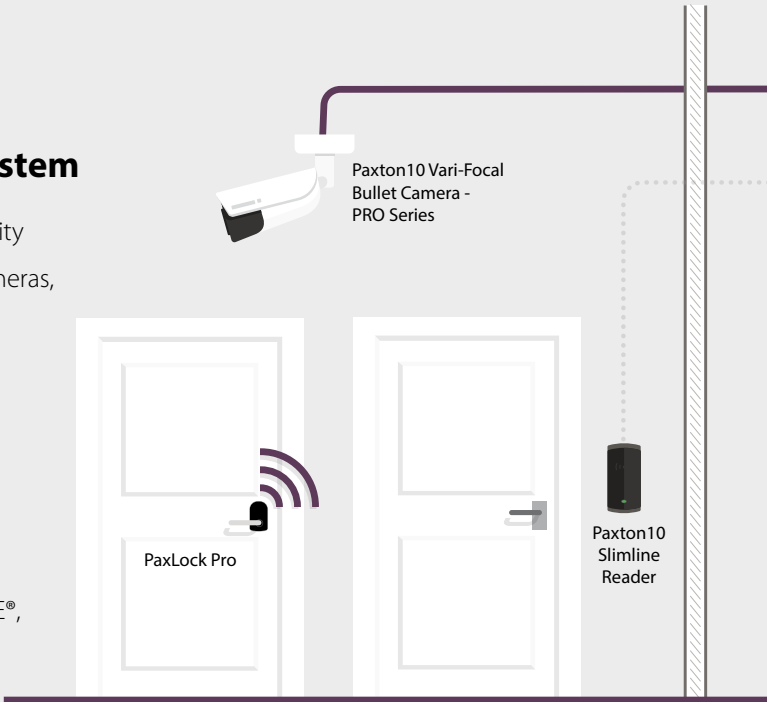

- ▶ Easy to quote and configure, build a complete system with just five components
- ▶ Manage multiple sites on a single system from anywhere with an internet connection
- ▶ Web-based user interface with no configuration required
- ▶ Paxton10 PRO and CORE cameras give you flexibility and choice; the system is also compatible with third-party IP video cameras
- ▶ Custom dashboards to suit any user requirements
- ▶ Built in **Bluetooth®** to use phone or smartwatch smart credentials.
- ▶ Works seamlessly with Entry and PaxLock Pro

Access Control and Video Management

Paxton10 Access control. Video management. One system

- ▶ Single door controller architecture for ease of install and flexibility
- ▶ Feature rich video management solution embedded in the cameras, no third-party integration required
- ▶ Built-in Bluetooth® wireless technology, supports free of charge smart credentials
- ▶ Fully compatible with Entry, our award-winning video and audio door entry solution
- ▶ Fully compatible with PaxLock, our wireless door handle range
- ▶ Distributed intelligence to increase reliability
- ▶ Powerful multifunction readers and keypad, reads Paxton, MIFARE®, HID™ Prox, EM, FeliCa, NFC and DESFire token technology

Paxton Connect

Paxton Key App

Paxton10 Software

A web-based user interface that is intuitive and easy to use.

Accessible from any device with an internet connection, the interface makes remote site management simple. The software comes as a native part of the system with a Paxton10 server. It has a range of intelligent features to maximise efficiency and optimise the combined access and video management solution.

- ▶ Web-based software – no installation, plug-ins or upgrading required
- ▶ Free of charge – simple online updates with no ongoing charges
- ▶ Suitable for touchscreen and desktop devices
- ▶ Optimised for use on PCs and tablets
- ▶ Low battery alerts, easy to monitor back up battery state
- ▶ Flexible and secure remote access

Features:

Dashboards - Customised dashboards to suit any user requirements

Reports - Powerful reporting engine where all system events and videos can be reviewed

Site plans - For the visual management of the system

Tutorial wizards - Support new and existing users to make full use of the software

People - Manage user permissions, credentials and information

Rules - Set permissions, time profiles, triggers and actions and much more

Devices - Configure and manage the devices in a building

Paxton10 Apps

Paxton Connect

Flexible site management

The Paxton Connect app provides easy and flexible site management for Paxton10. Containing easy to use features in one smart user interface, Paxton Connect enables you and your customers to manage multiple sites remotely from a smartphone.

Features:

People - Manage user permission, credentials and information

Reports - Access all system reports from your smart device or tablet

Devices - Configure and manage all devices on site

Dashboards - Access custom dashboards for personalised system overview

Paxton Key

Utilise smart devices as access tokens

The Paxton Key app allows system users to make use of their smartphone, smartwatch or tablet in place of traditional tokens. These are called smart credentials and can be issued free of charge. Utilising the built-in Bluetooth® wireless technology in Paxton10 readers, the smart device can securely communicate with the Paxton10 system to grant or deny access. Paxton Key also enables the user to carry out predefined building management functionality – such as setting the intruder alarm.

Download the free apps from the **App Store** or **Google Play**

Door Entry

Entry is a door entry system that works standalone or alongside Net2 access control, combining door entry with key features of Net2. Entry is a scalable solution, allowing expansion of up to a hundred panels and a thousand monitors.

- ▶ Just 3 components - monitor, panel and door controller
- ▶ Intruder alarm integration - set the alarm in Net2 from the Entry panel for extra convenience
- ▶ Premium, standard, audio, and vandal resistant solutions available
- ▶ Pan/tilt camera functionality to capture an angled view
- ▶ Low light sensitivity camera - ideal for use day or night
- ▶ SIP compatibility - the door can be answered from smartphone, tablet or PC
- ▶ Add a secondary IP camera for higher security sites

Entry

A smart, simple door entry system.

- ▶ Panels available in three variants: the Entry Touch panel with an advanced 7-inch colour touch screen, Entry Standard panel in anthracite grey and the Entry VR panel in super durable stainless steel
- ▶ All variants available in flush, surface and rain-hood versions - suitable for a range of environments
- ▶ Three monitors available, including premium, standard and audio, to create a custom solution for any site
- ▶ Personalise the Entry Touch panel, Premium monitor and Standard monitor with multiple theme options and contact images for quick visual recognition
- ▶ Video voicemail, enables visitors to leave a video message
- ▶ Add a secondary IP camera for higher security sites
- ▶ Reads Paxton and MIFARE® token technology

Standalone Entry system does not require connection to a network or server

Entry now works Standalone

Our video door entry system now works in standalone mode for a quick, simple installation and easy user management with our standard enrolment and shadow cards. Offer a flexible system that can grow in line with your customers' requirements and be upgraded to an online Net2 solution, with no hidden costs.

- Enable offline token-based access control on any Entry site
- Simple user management utilising Paxton's standalone functionality
- Upgrade existing standalone sites with video door entry for extra convenience
- Combine with other Paxton standalone products to build an entire easy-to-use system supporting the same tokens across the site
- See Standalone card packs on [page 43](#)

Watch the Entry Video

Show your customers the benefits of our simple video door entry solution in just two minutes, with the Entry video.

- ▶ Featuring the whole Entry range, including the new touch panel and premium monitor
- ▶ Just 3 components that auto-detect on set up
- ▶ Discover a scalable solution that suits a variety of locations

Watch it here:

Wireless Door Handles

PaxLock Pro is compatible with Net2, or works in Standalone mode. PaxLock Pro is a wireless, electronic, battery powered door handle. The design is compatible with any DIN standard lock for a quick and simple installation.

- ▶ Flexible upgrade path from standalone to networked, allowing your system to grow to suit your needs
- ▶ Internal and external variants available
- ▶ IK10 impact rated, external variant is also IP55 rated (reader side only)
- ▶ Supports multi-token technology, including Paxton, MIFARE®, Bluetooth®* and HID®Prox
- ▶ EN179 certified for emergency exits, both non-fire rated and for wood doors up to EI60 (FD60)

*Bluetooth® compatible with Paxton10 only

PaxLock Pro Wireless Controller

- ▶ Works standalone, or with Net2
- ▶ Simple upgrade path from standalone to networked
- ▶ Dual-frequency proximity reader
- ▶ EN179 Certified for emergency exits
- ▶ FD60 certified for fire doors
- ▶ Compatible with DIN standard locks

Standalone Access Control

Standalone access control is the simplest way to secure and control access through doors around your building. If you're looking to step up security, protect your staff and assets and save money, then Standalone access control is for you.

- ▶ A non-networked access control solution
- ▶ Simple and unique card management system
- ▶ Internal (Compact)/external (Switch2)
- ▶ Suitable for small to medium sized premises, or any site looking to secure a small number of doors
- ▶ Entry and PaxLock Pro now work in standalone mode

Switch2

Switch2 is a standalone system that comes as a separate single door controller and reader. The door controller is fitted on the secure side of the door, with the reader fitted on the other side. Switch2 offers a secure solution for customers wishing to control door access, who do not need the reports on users' movements provided by a PC based access control system.

Entry

Our video door entry system works in standalone mode for a quick, simple installation and easy user management with our standard enrolment and shadow cards. Offer a flexible system that can grow in line with your customers' requirements and be upgraded to work with Net2 or Paxton10, with no hidden costs.

See [page 31](#) for more information

PaxLock Pro

PaxLock Pro is our wireless access control solution in a battery operated door handle. It can be installed in standalone mode for use on sites not requiring the additional functionality of an online system. It's flexible upgrade path from standalone to networked creates a solution which can evolve with the needs of your customer.

See [page 32](#) for more information

Switch2 Readers
